DEPARTMENT OF HEALTH AND HUMAN SERVICES

OFFICE OF INSPECTOR GENERAL

WASHINGTON, DC 20201

TO: Kelly Cronin
Deputy Administrator for the Center for Innovation and Partnership
Administration for Community Living

FROM: Suzanne Murrin
Deputy Inspector General
for Evaluation and Inspections

SUBJECT: Memorandum Report: *2020 Performance Data for the Senior Medicare Patrol Projects*, OEI-02-21-00180

This memorandum report presents performance data for the Senior Medicare Patrol (SMP) projects for 2020. The Office of Inspector General (OIG) has collected these data since 1997. In July 2010, the Administration on Aging, which is now part of the Administration for Community Living (ACL), requested that OIG continue to collect and report performance data for the SMP projects to support ACL's efforts to evaluate and improve its performance. OIG reports these performance data on an annual basis.

SUMMARY

The SMP projects receive grants from ACL to recruit and train retired professionals and other older adults and community members to prevent, recognize, and report health care fraud, errors, and abuse. These SMP team members then participate in outreach events to help educate Medicare and Medicaid beneficiaries on the same prevention, recognition, and reporting techniques.

The coronavirus disease 2019 (COVID-19) pandemic presented many challenges for the SMP projects that limited their in-person activities. For example, in lieu of conducting in-person outreach events, the projects conducted live webinars or teleconferences and recorded presentations or public service announcements. In 2020, the 54 projects:

- had 5,720 active team members;
- conducted 9,870 group outreach and education events; and

- had 249,134 individual interactions with, or on behalf of, a Medicare beneficiary.

The projects also had the following results:

- \$16.8 million in expected Medicare recoveries that were attributable to the projects;
- \$53,768 in cost avoidance on behalf of Medicare, Medicaid, beneficiaries, and others; and
- \$33,554 in total savings to beneficiaries and others.

We note that the projects may not be receiving full credit for recoveries, savings, and cost avoidance attributable to their work. It is not always possible to track referrals to Medicare contractors or to law enforcement from beneficiaries who have learned to detect fraud, waste, and abuse from the projects. In addition, the projects are unable to track the potentially substantial savings derived from a sentinel effect, whereby Medicare beneficiaries' scrutiny of their bills reduces fraud and errors.

BACKGROUND

There is 1 SMP project in each of the 50 States, the District of Columbia, Puerto Rico, Guam, and the U.S. Virgin Islands. In 2020, funding for the program totaled \$18 million in Health Care Fraud and Abuse Control Program funding. Of that \$18 million, \$2.4 million supported infrastructure, technical assistance, and other SMP program activities, and \$15.6 million went to SMP projects to help beneficiaries prevent, detect, and report Medicare fraud, errors, and abuse. In 2019, funding for the projects totaled \$18.1 million.

Performance Measures

Since the beginning of the program, ACL has modified the performance measures in a number of ways. In 2007, the projects were required to begin measuring "cost avoidance"—the health care expenditures for which Medicare, Medicaid, a beneficiary, or another entity (e.g., a secondary health insurer or a pharmacy) was relieved of responsibility for payment as a result of the projects. In 2012, ACL expanded the performance measures for both Medicare and Medicaid recoveries to account for expected recoveries as well as actual recoveries. This accounting method is consistent with OIG's accounting of its own recoveries.¹

In 2015, ACL changed the other performance measures, with the goal of aligning them more closely with the SMP projects' outcomes. Specifically, ACL reduced the number of performance

¹ As required by the Inspector General Act of 1978 (P.L. No. 95-452, enacted Oct. 1, 1978), as amended, OIG reports semiannually to the Secretary of Health and Human Services and to Congress on the activities of the office. In the semiannual report, OIG reports expected recoveries. See the most recent semiannual report at <https://oig.hhs.gov/reports-and-publications/semiannual/index.asp>.

measures from 21 to 10 by keeping the 5 measures pertaining to recoveries, savings, and cost avoidance and combining or redefining the 16 measures pertaining to volunteer and outreach activities, condensing them into 5 new measures. In addition, ACL no longer requires the projects to report on the number of media airings and the ways they process complex issues. See Appendix F for a list of the current measures and their definitions.

In 2017, OIG added two new measures that capture additional expected recoveries from cases in which the SMP projects were minimally involved. These new measures—one for Medicare and the other for Medicaid—include actual and expected recoveries that resulted from SMP referrals that validated information in an existing investigation. In contrast, the original two measures on expected recoveries capture recoveries from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

This performance year, OIG also looked at the projects' educational outreach activities related to two fraud alerts developed by the SMP program: one related to COVID-19 and one related to fraud schemes involving genetic testing.

Tracking Systems

ACL maintains a reporting system—the SMP Information and Reporting System—for SMP projects to track and report activities and complaints. Although projects commonly resolve complaints on their own, they are expected to refer cases to an investigative agency when necessary. These referrals are also recorded in the system.

METHODOLOGY

We based our review on data reported for 2020 in the SMP Information and Reporting System by 54 SMP projects. In this report, we provide the first 5 years of data for five measures. For these five measures, we reviewed the data for any discrepancies (e.g., if a project reported holding no events but reported a number of people who attended events). For the measures on recoveries, savings, and cost avoidance, we reviewed the projects' documentation in the same manner as in the past. Specifically, we reviewed documentation for expected recoveries and additional expected recoveries of funds for the Medicare and Medicaid programs; documentation for project-attributable savings to beneficiaries and others; and documentation for cost avoidance. We provide the results for all 12 performance measures in detail in the appendices.

Standards

We conducted this study in accordance with the *Quality Standards for Inspection and Evaluation* issued by the Council of the Inspectors General on Integrity and Efficiency.

RESULTS

Results for 2020

The COVID-19 pandemic presented many challenges for the SMP projects that limited their activities. For example, in lieu of conducting in-person outreach events, the projects conducted live webinars or teleconferences and recorded presentations or public service announcements. Some projects reached out to beneficiaries via group emails or telephone calls. As a result, the performance data for 2020 do not reflect a normal year of activities for the projects.

In 2020, the 54 SMP projects had a total of 5,720 active team members who conducted a total of 9,870 group outreach and education events, reaching an estimated 425,103 people. In addition, the projects had 249,134 individual interactions with, or on behalf of, a Medicare beneficiary.

For 2020, the SMP projects reported \$16.8 million in expected Medicare recoveries. Over half of these recoveries came from one project that uncovered a fraud scheme in which a provider paid beneficiaries to receive home health services that were never rendered. The provider then submitted fraudulent claims to Medicare for millions of dollars while also receiving illegal kickback payments from the home health agencies. The provider was sentenced and ordered to pay a total of \$9.5 million in restitution and forfeitures. Another project reported nearly \$5 million in expected Medicare recoveries after uncovering multiple fraud schemes Statewide that involved enrolling beneficiaries in medically unnecessary hospice services. These services were often provided against the beneficiaries' wishes, and at times, interfered with their proper medical care and medications. In addition, cost avoidance in 2020 totaled \$53,768, while savings to beneficiaries and others totaled \$33,554 for all SMP projects.

In addition, the SMP program released a consumer fraud alert on COVID-19 in 2020.² The alert warns beneficiaries about potential fraud schemes involving COVID-19 vaccines and treatments. It advises beneficiaries to be suspicious of strangers offering free COVID-19 testing, supplies, treatments, or vaccines. The alert also advises beneficiaries to be cautious about sharing their personal information, including their Medicare identification number, because this information can be used in fraud schemes. The SMP projects conducted 350 group education events covering COVID-19 fraud issues in 2020, reaching a total of 11,775 people. In addition, they conducted 578 instances of media outreach on this topic, reaching 14.8 million people.

The SMP COVID-19 Fraud Alert

The SMP program produced an alert that provides information about potential scams related to COVID-19 and advises beneficiaries on actions they can take to avoid becoming a victim of such scams. Examples of advice provided in the alert include:

- Be suspicious of anyone going door-to-door to offer free COVID-19 testing, supplies, treatments, or vaccines.
- Beware of providers offering other products, treatments, or medicines to prevent the virus. Check with your health care provider before paying for or receiving any COVID-19-related treatment.
- Photos of COVID-19 vaccination cards should not be shared on social media.

The SMP program also continued from 2019 its educational outreach on fraud schemes involving genetic testing.³ Its fraud alert on genetic testing advises beneficiaries to be suspicious of strangers who offer free genetic tests. The alert also cautions beneficiaries about sharing personal information that can be used fraudulently. The SMP projects conducted 641 group education events covering genetic testing fraud issues in 2020; these events reached 24,443 people. In addition, they conducted 102 instances of media outreach on this topic, reaching 850,374 people.

Because of the COVID-19 pandemic, the SMP projects were not able to conduct in-person outreach events and face-to-face individual interactions as they have done in the past. As a result, the projects reported for 2020 a decrease compared to 2019 in the number of group outreach and education events; the number of people reached through these events; and the number of individual interactions. However, the projects reported significantly higher amounts of Medicare recoveries, which increased from \$2.4 million in 2019 to \$16.8 million in 2020. The

The SMP fraud alert references a corresponding OIG fraud alert that can be accessed at <https://oig.hhs.gov/coronavirus/fraud-alert-covid19.asp>.

³ See SMP, *SMP Consumer Fraud Alert: Genetic Testing*. Accessed at <https://www.smpresource.org/Content/Medicare-Fraud/SMP-Consumer-Fraud-Alerts/SMP-Consumer-Fraud-Alert-Genetic-Testing.aspx> on January 11, 2021. The SMP fraud alert references a corresponding OIG fraud alert. See OIG, *Fraud Alert: Genetic Testing Scam*. Accessed at <https://oig.hhs.gov/fraud/consumer-alerts/alerts/geneticcam.asp> on January 11, 2021.

majority of these recoveries were the result of investigations that were resolved in 2020 but began several years prior.

Results Since 1997

Since the program's inception 24 years ago, the SMP projects have reported performance data on key measures, including Medicare and Medicaid recoveries; savings to beneficiaries and others; and cost avoidance on behalf of Medicare, Medicaid, beneficiaries, and others. In total, expected recoveries to Medicare and Medicaid attributable to the projects from 1997 through 2020 were \$138.9 million.⁴ Most of the recoveries resulted from one project's involvement in adjustments to Medicaid claims for individuals entitled to both Medicare and Medicaid.⁵ Total savings to beneficiaries and others were approximately \$7.2 million. Total cost avoidance on behalf of Medicare, Medicaid, beneficiaries, and others was \$10.2 million.

Other SMP Activities

As part of a partnership with OIG, the SMP program identifies potential fraud schemes. The SMP program provides OIG with reports, referred to as Special Notifications, intended to provide timely information on emerging fraud schemes that have been identified by the SMP projects. In 2020, the SMP program provided 42 special notifications to OIG. These notifications focused on fraud schemes involving COVID-19 testing and vaccines; opioids; hospice services; drug prescribing; durable medical equipment; genetic testing; and other topics.

CONCLUSION

The SMP projects receive grants from ACL to recruit and train retired professionals and other older adults and community members to recognize and report instances or patterns of health care fraud. In 2020, the COVID-19 pandemic presented many challenges for the SMP projects that limited their in-person activities. As a result, the performance data for 2020 do not reflect a normal year of activities for the projects.

In 2020, the SMP projects had a total of 5,720 active team members who conducted a total of 9,870 group outreach and education events, reaching an estimated 425,103 people. Results attributable to the SMP projects' efforts included \$16.8 million in expected Medicare recoveries, \$53,768 in cost avoidance, and \$33,554 in savings to beneficiaries and others. In comparison to 2019, the projects reported a significantly higher amount for Medicare recoveries. The majority of these recoveries were the result of investigations that were resolved in 2020 but began several years prior.

⁴ Prior to 2007, OIG reviewed documentation on savings to Medicare only and included self-reported data on savings to Medicaid, beneficiaries, and other entities. In addition, prior to 2012, the projects reported actual recoveries only.

⁵ The project reported these savings between 2001 and 2003.

We note that the projects may not be receiving full credit for recoveries, savings, and cost avoidance attributable to their work. It is not always possible to track referrals to Medicare contractors or law enforcement from beneficiaries who have learned to detect fraud, waste, and abuse from the projects. In addition, the projects are unable to track the potentially substantial savings derived from a sentinel effect, whereby Medicare beneficiaries' scrutiny of their bills reduces fraud and errors.

As agreed, we will continue to monitor the projects and will provide ACL with annual summary reports of performance data. This memorandum report is being issued directly in final form because it contains no recommendations. If you have comments or questions about this memorandum report, please provide them within 60 days. Your staff may contact Kaliae Davidson at (202) 836-1069 or Kaliae.Davidson@oig.hhs.gov. Please refer to report number OEI-02-21-00180 in all correspondence.

Results for Performance Measures for the Senior Medicare Patrol Projects

List of Appendices

Appendix A: Summary of Overall Performance of Projects in 2020.....	9
Appendix B: Summary of Performance on Recoveries, Savings, and Cost Avoidance, Since 1997.....	10
Appendix C: Summary of Performance on SMP Activities, 2016–2020	11
Appendix D: Results for 2020, by Performance Measure	12
Appendix E: Results for 2020, by Project.....	25
Appendix F: Definitions of Performance Measures.....	80

APPENDIX A

Summary of Overall Performance of Projects in 2020*

Performance measures	Total for 2020
Total number of active SMP team members	5,720
Total number of SMP team member hours	450,045
Number of group outreach and education events	9,870
Estimated number of people reached through group outreach and education events	425,103
Number of individual interactions with, or on behalf of, a Medicare beneficiary	249,134
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$53,768
Expected Medicare recoveries attributable to the projects	\$16,805,050
Additional expected Medicare recoveries attributable to the projects**	\$0
Expected Medicaid recoveries attributable to the projects	\$0
Additional expected Medicaid recoveries attributable to the projects**	\$0
Savings to beneficiaries attributable to the projects	\$32,272
Other savings attributable to the projects (e.g., savings to supplemental insurance)	\$1,282
Total savings attributable to the projects***	\$16,838,604

* The totals in this table have been rounded.

** Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

*** Total savings includes expected Medicare recoveries, expected Medicaid recoveries, and savings to the beneficiaries and others.

APPENDIX B

Summary of Performance on Recoveries, Savings, and Cost Avoidance, Since 1997

Performance measures	Total Since 1997
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others*	\$10,153,774
Expected Medicare recoveries attributable to the projects**	\$44,046,996
Additional expected Medicare recoveries attributable to the projects***	\$65,113,359
Expected Medicaid recoveries attributable to the projects**	\$94,818,031
Additional expected Medicaid recoveries attributable to the projects***	\$1,789,200
Savings to beneficiaries attributable to the projects	\$3,708,460
Other savings attributable to the projects (e.g., savings to supplemental insurance)	\$3,474,704
Total savings attributable to the projects****	\$146,048,191

* This performance measure has been reported since 2007.

** This performance measure was changed in 2012 to include both actual recoveries and expected recoveries.

*** Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations. This performance measure was reported for the first time in 2018.

**** Total savings includes expected Medicare recoveries, expected Medicaid recoveries, and savings to the beneficiaries and others.

APPENDIX C

Summary of Performance on SMP Activities, 2016–2020

Performance measures*	Total: 2016–2020
Total number of active SMP team members	31,786
Total number of SMP team member hours	2,331,828
Number of group outreach and education events	117,597
Estimated number of people reached through group outreach and education events	7,117,972
Number of individual interactions with, or on behalf of, a Medicare beneficiary	1,270,132

* These measures were introduced beginning with the data for 2016 and cannot be compared to the measures for data prior to 2016, which are listed in Appendix B of the OIG report *2016 Performance Data for the Senior Medicare Patrol Projects* (OEI-02-17-00220).

APPENDIX D

Results for 2020, by Performance Measure

The following tables provide the results by performance measure and by State for the SMP projects.

Note: Because of rounding, the totals listed in Appendix A may not match the sums of the corresponding individual figures listed in Appendix D.

Total Number of Active SMP Team Members

APPENDIX E

Results for 2020, by Project

The following tables provide the results for each performance measure for each of the 54 SMP projects in 2020. The tables also include the grant total for 2020 for each project. In addition, the measure for total savings includes expected Medicare recoveries, expected Medicaid recoveries, and savings to the beneficiaries and others.

Note: Because of rounding, the totals listed in Appendix A may not match the sums of the corresponding individual figures listed in Appendix E.

Alabama – State of Alabama Department of Senior Services

Performance measures	Total for 2020
Total number of active SMP team members	119
Total number of SMP team member hours	7,250
Number of group outreach and education events	373
Estimated number of people reached through group outreach and education events	19,531
Number of individual interactions with, or on behalf of, a Medicare beneficiary	7,969
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$0
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$292,181

Alaska – Alaska Department of Health & Social Services

Performance measures	Total for 2020
Total number of active SMP team members	36
Total number of SMP team member hours	5,690
Number of group outreach and education events	50
Estimated number of people reached through group outreach and education events	7,028
Number of individual interactions with, or on behalf of, a Medicare beneficiary	711
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$6,244
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$235,844

Arizona – Arizona Department of Economic Security

Performance measures	Total for 2020
Total number of active SMP team members	80
Total number of SMP team member hours	18,549
Number of group outreach and education events	124
Estimated number of people reached through group outreach and education events	6,355
Number of individual interactions with, or on behalf of, a Medicare beneficiary	5,154
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$0
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$301,198

Arkansas – Arkansas Department of Human Services

Performance measures	Total for 2020
Total number of active SMP team members	102
Total number of SMP team member hours	4,795
Number of group outreach and education events	211
Estimated number of people reached through group outreach and education events	5,299
Number of individual interactions with, or on behalf of, a Medicare beneficiary	199
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$620
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$269,890

California – California Health Advocates

Performance measures	Total for 2020
Total number of active SMP team members	505
Total number of SMP team member hours	28,358
Number of group outreach and education events	559
Estimated number of people reached through group outreach and education events	23,152
Number of individual interactions with, or on behalf of, a Medicare beneficiary	25,535
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$1,243
Expected Medicare recoveries attributable to the project	\$6,909,480
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$3,364
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$789
Total savings attributable to the project	\$6,913,634

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$544,504

Colorado – State of Colorado Division of Insurance – DORA

Performance measures	Total for 2020
Total number of active SMP team members	74
Total number of SMP team member hours	9,509
Number of group outreach and education events	157
Estimated number of people reached through group outreach and education events	4,047
Number of individual interactions with, or on behalf of, a Medicare beneficiary	8,562
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$0
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$279,641

Connecticut – State of Connecticut Department of Rehabilitation

Performance measures	Total for 2020
Total number of active SMP team members	63
Total number of SMP team member hours	5,805
Number of group outreach and education events	97
Estimated number of people reached through group outreach and education events	2,444
Number of individual interactions with, or on behalf of, a Medicare beneficiary	131
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$72
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$268,211

Delaware – Delaware DHSS – Division of Social Services

Performance measures	Total for 2020
Total number of active SMP team members	18
Total number of SMP team member hours	7,165
Number of group outreach and education events	58
Estimated number of people reached through group outreach and education events	1,594
Number of individual interactions with, or on behalf of, a Medicare beneficiary	21
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$0
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$241,734

District of Columbia – AARP Legal Counsel for the Elderly

Performance measures	Total for 2020
Total number of active SMP team members	51
Total number of SMP team member hours	5,834
Number of group outreach and education events	81
Estimated number of people reached through group outreach and education events	1,668
Number of individual interactions with, or on behalf of, a Medicare beneficiary	123
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$0
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$235,290

Florida – Florida Department of Elder Affairs

Performance measures	Total for 2020
Total number of active SMP team members	367
Total number of SMP team member hours	44,698
Number of group outreach and education events	1,238
Estimated number of people reached through group outreach and education events	37,614
Number of individual interactions with, or on behalf of, a Medicare beneficiary	29,850
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$0
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$460,557

Georgia – eQHealth Solutions, Inc.

Performance measures	Total for 2020
Total number of active SMP team members	18
Total number of SMP team member hours	6,456
Number of group outreach and education events	33
Estimated number of people reached through group outreach and education events	1,184
Number of individual interactions with, or on behalf of, a Medicare beneficiary	152
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$0
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$329,326

Guam – Guam Department of Public Health and Social Services

Performance measures	Total for 2020
Total number of active SMP team members	3
Total number of SMP team member hours	180
Number of group outreach and education events	17
Estimated number of people reached through group outreach and education events	367
Number of individual interactions with, or on behalf of, a Medicare beneficiary	254
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$0
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$95,000

Hawaii – State of Hawaii Department of Health

Performance measures	Total for 2020
Total number of active SMP team members	51
Total number of SMP team member hours	6,726
Number of group outreach and education events	45
Estimated number of people reached through group outreach and education events	3,536
Number of individual interactions with, or on behalf of, a Medicare beneficiary	322
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$0
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$294
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$294

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$245,764

Idaho – Idaho Commission on Aging

Performance measures	Total for 2020
Total number of active SMP team members	77
Total number of SMP team member hours	9,966
Number of group outreach and education events	138
Estimated number of people reached through group outreach and education events	4,259
Number of individual interactions with, or on behalf of, a Medicare beneficiary	4,998
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$1,100
Expected Medicare recoveries attributable to the project	\$5,372
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$350
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$493
Total savings attributable to the project	\$6,215

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$249,508

Illinois – AgeOptions

Performance measures	Total for 2020
Total number of active SMP team members	68
Total number of SMP team member hours	7,505
Number of group outreach and education events	230
Estimated number of people reached through group outreach and education events	4,905
Number of individual interactions with, or on behalf of, a Medicare beneficiary	3,623
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$0
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$358,863

Indiana – Indiana Association of Area Agencies on Aging Education Institute

Performance measures	Total for 2020
Total number of active SMP team members	76
Total number of SMP team member hours	6,828
Number of group outreach and education events	157
Estimated number of people reached through group outreach and education events	14,939
Number of individual interactions with, or on behalf of, a Medicare beneficiary	2,412
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$0
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$303,697

Iowa – Iowa Insurance Division - SHIP

Performance measures	Total for 2020
Total number of active SMP team members	254
Total number of SMP team member hours	13,509
Number of group outreach and education events	69
Estimated number of people reached through group outreach and education events	2,964
Number of individual interactions with, or on behalf of, a Medicare beneficiary	10,997
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$0
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$268,734

Kansas – Kansas Department on Aging and Disability Services

Performance measures	Total for 2020
Total number of active SMP team members	81
Total number of SMP team member hours	3,866
Number of group outreach and education events	190
Estimated number of people reached through group outreach and education events	8,351
Number of individual interactions with, or on behalf of, a Medicare beneficiary	5,646
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$0
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$262,153

Kentucky – Louisville-Jefferson County Metro Government

Performance measures	Total for 2020
Total number of active SMP team members	92
Total number of SMP team member hours	10,162
Number of group outreach and education events	156
Estimated number of people reached through group outreach and education events	5,461
Number of individual interactions with, or on behalf of, a Medicare beneficiary	844
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$0
Expected Medicare recoveries attributable to the project	\$2,275
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$974
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$3,249

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$288,445

Louisiana – eQHealth Solutions, Inc.

Performance measures	Total for 2020
Total number of active SMP team members	59
Total number of SMP team member hours	5,381
Number of group outreach and education events	74
Estimated number of people reached through group outreach and education events	8,434
Number of individual interactions with, or on behalf of, a Medicare beneficiary	370
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$0
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$280,508

Maine – Maine Department of Health and Human Services

Performance measures	Total for 2020
Total number of active SMP team members	97
Total number of SMP team member hours	8,405
Number of group outreach and education events	253
Estimated number of people reached through group outreach and education events	2,954
Number of individual interactions with, or on behalf of, a Medicare beneficiary	4,021
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$0
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$251,160

Maryland – Maryland Department of Aging

Performance measures	Total for 2020
Total number of active SMP team members	87
Total number of SMP team member hours	5,687
Number of group outreach and education events	150
Estimated number of people reached through group outreach and education events	6,811
Number of individual interactions with, or on behalf of, a Medicare beneficiary	7,875
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$0
Expected Medicare recoveries attributable to the project	\$0
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$0
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$0

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$287,337

Massachusetts – Elder Services of the Merrimack Valley, Inc.

Performance measures	Total for 2020
Total number of active SMP team members	80
Total number of SMP team member hours	6,401
Number of group outreach and education events	167
Estimated number of people reached through group outreach and education events	8,596
Number of individual interactions with, or on behalf of, a Medicare beneficiary	120
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	\$5,196
Expected Medicare recoveries attributable to the project	\$10,418
Additional expected Medicare recoveries attributable to the project*	\$0
Expected Medicaid recoveries attributable to the project	\$0
Additional expected Medicaid recoveries attributable to the project*	\$0
Savings to beneficiaries attributable to the project	\$600
Other savings attributable to the project (e.g., savings to supplemental insurance)	\$0
Total savings attributable to the project	\$11,018

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$304,115

Michigan – MMAP, Inc.

Performance measures	Total for 2020
Total number of active SMP team members	751
Total number of SMP team member hours	16,511

* Additional expected recoveries are expected recoveries from cases in which the SMP projects were minimally involved, as distinguished from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.

Grant Total: \$236,651

APPENDIX F

Definitions of Performance Measures

Total number of active SMP team members	Individuals who spent any time on the SMP program, including those paid by the SMP program, those paid in kind, and volunteer team members.
Total number of SMP team member hours	Hours contributed by team members while performing SMP work and receiving training to perform SMP work, including time spent by team members paid by the SMP program, team members paid in kind, and volunteer team members.
Number of group outreach and education events	Community outreach events, education activities, and presentations to educate beneficiaries, family members, caregivers, and others about SMP services and the detection of health care fraud, errors, and abuse.
Estimated number of people reached through group outreach and education events	Total estimated number of people reached as a result of SMP group outreach and education activities.
Number of individual interactions with, or on behalf of, a Medicare beneficiary	Individual interactions between SMP team members and beneficiaries, family members, caregivers, or others for the purpose of discussing or gathering information about potential health care fraud, errors, or abuse.
Cost avoidance on behalf of Medicare, Medicaid, beneficiaries, or others	Health care expenditures for which the government, a beneficiary, or other entity (e.g., secondary health insurer or a pharmacy) was relieved of responsibility for payment as a result of the SMP project.
Expected Medicare recoveries attributable to the projects	This amount represents actual and expected Medicare recoveries from criminal actions, settlements, civil judgments, or overpayments that resulted from the referral. This measure applies to the amount of money that was ordered or agreed upon to be returned to Medicare and may not reflect actual collections. Recoveries may also involve cases that include participation by a Medicare contractor or a law enforcement agency. This measure includes recoveries from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.
Additional expected Medicare recoveries attributable to the projects	This amount represents actual and expected Medicare recoveries from criminal actions, settlements, civil judgments, or overpayments that resulted from the referral. This measure applies to the amount of money that was ordered or agreed upon to be returned to Medicare and may not reflect actual collections. Recoveries may also involve cases that include participation by a Medicare contractor or a law enforcement agency. This measure includes recoveries from referrals that validated information in an existing investigation. This measure aims to capture additional recoveries in which the SMP project was minimally involved.

Definitions of Performance Measures (continued)

Expected Medicaid recoveries attributable to the projects	This amount represents actual and expected Medicaid recoveries from criminal actions, settlements, civil judgments, or overpayments that resulted from the referral. This measure applies to the amount of money that was ordered or agreed upon to be returned to Medicaid and may not reflect actual collections. Recoveries may also involve cases that include participation by a Medicaid Fraud Control Unit or a law enforcement agency. This measure includes recoveries from referrals from SMP projects that led to the opening of investigations or from meaningful contributions by SMP projects to existing investigations.
Additional expected Medicaid recoveries attributable to the projects	This amount represents actual and expected Medicaid recoveries from criminal actions, settlements, civil judgments, or overpayments that resulted from the referral. This applies to the amount of money that was ordered or agreed upon to be returned to Medicaid and may not reflect actual collections. Recoveries may also involve cases that include participation by a Medicaid contractor or a law enforcement agency. This measure includes recoveries from referrals that validated information in an existing investigation. This measure aims to capture additional recoveries in which the SMP project was minimally involved.
Savings to beneficiaries attributable to the projects	Money recouped to an individual as a result of the SMP project (e.g., copayments, deductibles, or any other out-of-pocket expenses).
Other savings attributable to the projects (e.g., savings to supplemental insurance)	Money recouped to an entity other than Medicare, Medicaid, or a beneficiary (e.g., a secondary health insurer) as a result of the SMP project.
